Subject: Islamic University of Minnesota

Hello Ms. Ness:

Thank you for your email regarding this institution. Islamic University of Minnesota is currently exempt from registration with our office based on the content of their programs being strictly religious in nature. The statement: *IUM is locally registered with the Minnesota Secretary of State as well the Minnesota Department of Higher Education as a degree granting institution.* Found here: <http://iuminnesota.com/accreditation/> is factually incorrect. We will be contacting IUM shortly to have them remove this statement from their website.

Thank you,
